

U.S. Battery is proud to introduce the world's only true DEEP CYCLE Group 27 & 31 battery line.

U.S. Battery's Engineering team has specifically designed and engineered these new and innovative products to outperform and outlast the typical "Dual Purpose" or "SLI" types that are commonly found in this market.

U.S. Battery produces our entire line of True Deep Cycle Batteries at our factories in the USA.

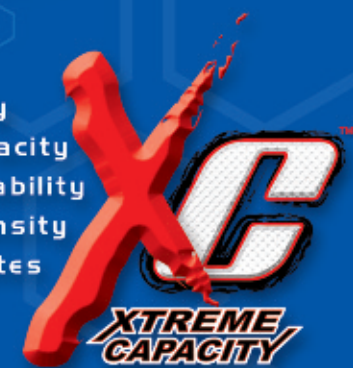

U.S. Battery's Brand New and Innovative "US27DCXC" & "US31DCXC" Deep Cycle Batteries are designed and manufactured using the same plate making technology as our flagship and world famous US2200XC, along with U.S. Battery's other premium Deep Cycle Batteries. That's the true difference between U.S. Battery and other battery manufacturers. U.S. Battery custom builds every plate that goes into our new and improved **US27DCXC & US31DCXC** batteries to hold the maximum amount of energy absorbing paste possible (now with U.S. Battery's proven "XC" technology).

This new process provides Longer Battery Life and Improved Maximum Capacity. All of U.S. Battery's batteries are designed to endure the grueling day-to-day charge and deep discharge cycle that causes most other competing brands to fail prematurely. That won't happen to U.S. Battery's products, as our proven manufacturing processes and techniques will give you years of Reliable and Dependable service. Longer lasting and precision-engineered products are only a few reasons why the U.S. Battery brand is a name the world has trusted for over 83 years. We were here for you then and will be here for you now and for decades to come.

XTREME CAPACITY™ with Diamond Plate Technology®

- X** Xtreme Durability
- X** Higher Peak Capacity
- X** Increased Initial Capacity
- X** Enhanced Recharge-ability
- X** Improved Energy Density
- X** Fortified Thicker Plates
- X** Improved Cycle Life

US 27 DCXC SPECIFICATIONS

5 Hour Rate **90 Ah**
20 Hour Rate **105 Ah**
Min. of Discharge **205 @ 25A.@80°F**
Min. of Discharge **42 @ 75A.@80°F**
CCA @ 0°F **575**

Length **12-3/4"**
Width **6-3/4"**
Height **9-3/4"**

US 31 DCXC SPECIFICATIONS

5 Hour Rate **99 Ah**
20 Hour Rate **130 Ah**
Min. of Discharge **225 @ 25A.@80°F**
Min. of Discharge **49 @ 75A.@80°F**
CCA @ 0°F **620**

Length **13"**
Width **6-3/4"**
Height **9-3/4"**

WARNING:
 U.S. Battery uses only the world's highest quality ingredients to manufacture our premium made Deep Cycle Batteries. Some customers have been known to continuously check their date of purchase because they just can't believe how much longer our batteries hold their charge. **Fear not!** There has been no mistake. Our batteries truly outperform, outlast and recharge better and faster than the competition's.
